 move remains a long shot

By Dennis Ramirez

Manila, June 20, 2008 (Inquirer) — The House of Representatives today rejected a motion to impeach President Gloria Macapagal Arroyo.

Oil prices worry GMA, TUCP

Oil prices are expected to rise sharply in the coming months, which could lead to a significant increase in the cost of living for many Filipinos. The GMA and TUCP are both concerned about the potential impact of rising oil prices on the economy and the general public. The GMA is particularly worried about the impact on the transportation sector, while the TUCP is more concerned about the impact on the overall cost of living. Both organizations are calling for the government to take action to mitigate the impact of rising oil prices.
